REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art when taken separately or combined fails to teach and/or show a dual function console lamp as set forth in Claim 1 having a bezel, a lamp housing with pivot pins to allow the lamp housing to pivot from a retracted dome lighting position in a panel parallel to the bezel to an extended reading light position out of the plane, a retainer for rotatably securing the lamp housing to the bezel, and a switch operated by movement of the lamp housing between the retracted and extended positions.
2. The prior art when taken separately or combined fails to teach and/or show a console lamp for a vehicle interior as set forth in Claim 11 having a bezel with a plurality of lamp housing apertures, a main switch, and a plurality of retaining members around each lamp housing aperture. Each lamp housing aperture having a lamp housing with pivot pins to allow the lamp to pivot from a retracted dome lighting position to an extended reading light position, a latch striker, and a switch striker. A latching mechanism for releasably holding the latch striker and the lamp housing in the retracted position and a spring engaging the lamp housing and moving the lamp housing from the retracted position to the extended position when the latch striker is released by the latching mechanism. The console lamp also having a hidden switch operated by the switch striker when the lamp is moved between the retracted and extended positions and a main switch to operate the lamp when the lamp housing is in the retracted position.

3. The prior art when taken separately or combined fails to teach and/or show a dual function console lamp for a vehicle interior as set forth in Claim 17 having a bezel, a housing adapted to receive a lamp and being pivotable about a first axis to extend at an angle out of the first plane relative to the bezel to provide illumination to a first target area and to retract to a position flush with the bezel in the first plane to provide illumination to a second target area, and a switch operable by movement of the housing, which provides power to the lamp when the housing is pivoted out of the first plane.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
